**MYSORE DEPARTMENT OF HEALTH.**

**NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE FOR THE WEEK ENDED  
THURSDAY, APRIL 20, 1933.**

A total of 16 attacks with 16 deaths from plague was returned during the week against 26 attacks with 4 deaths in the previous week. The Cities of Bangalore and Mysore and Kolar Gold Field Area remained free from the disease. Comparative figures for the corresponding week in 1932 and 1931 were 25 attacks with 14 deaths and 9 attacks with 5 deaths respectively.

One hundred and twenty-one attacks with twenty-eight deaths from small-pox were reported from three villages in Malur Taluk, two villages in each of T. Narsipur, Channarayana and Chikballapur Taluks, and one village in each of Hoskote, Mandya, Hassan, Arsikere, Mudgere and Closepet Taluks and from Sagar Town and from the Cities of Bangalore and Mysore and Kolar Gold Field Area.

One fatal case of influenza were reported from the Kolar Gold Field Area.

The State remained free from Cholera and Relapsing Fever.

The total mortality for Bangalore City amounted to 96, representing a calculated annual ratio of 28.96 per mille of population against the average ratio of 24.75 for the corresponding week of last year. Classified according to causes, the deaths numbered 8 under Broncho Pneumonia, 8 under Pneumonia, 3 under Other Fevers, 9 under Phthisis, 11 under Dysentery and Diarrhoea and 57 under all other causes.

During the week, the Civil and Military Station, Bangalore, returned 75 deaths representing a calculated annual ratio of 29.08 per mille of population as against the average ratio of 22.89 for the corresponding week of last year. Classified according to causes, the deaths were Broncho Pneumonia 3, Pneumonia 11, Typhoid 1, Phthisis 5, Dysentery and Diarrhoea 13, and all other causes 42.

The total mortality for Mysore City was 32, representing a calculated annual ratio of 16.46 per mille of population as against the average ratio of 21.84 for the corresponding week of last year. Classified according to causes, the deaths numbered—2 under Small-pox, 1 under Broncho Pneumonia, 3 under Pneumonia, 1 under Typhoid, 5 under Phthisis, 2 under Dysentery and Diarrhoea and 18 under all other causes.

There were 38 deaths from all causes in Kolar Gold Field equivalent to a calculated annual ratio of 23.21 per mille of population against the average ratio of 29.32 for the corresponding week of last year. Classified according to causes, the deaths were Small-pox
